

Sacred Art of Geometry

Short Courses in the Philosophy and Practice of Sacred Geometry
and the Arts of the Quadrivium at SAOG Studios, Emerson College, UK

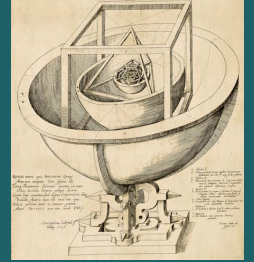

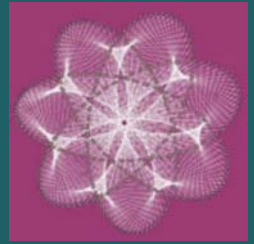

Patterns of the Planets

with Daniel Docherty and Hartmut Warm

12-14 October 2018
Cost: £195

SAOG STUDIOS, RUSKIN EAST,
EMERSON COLLEGE, FOREST ROW, EAST SUSSEX, RH18 5JX

Join master geometer Daniel Docherty and astronomer and *Signature of the Celestial Spheres* author Hartmut Warm for what promises to be an enlightening and revelatory three-day course at SAOG Studios this 12-14 October 2018.

Deepen your understanding of ancient and modern conceptions of the cosmos and learn about the incredible order and beauty inherent within our Solar System. Each day we will embody this heavenly wisdom - this *Harmony of the Spheres* - within pattern, by constructing a number of sacred geometries that resonate with the heavenly archetypes.
